

V-Belt Pulley

BPT stock a range of quality V-Belt Pulleys. Constructed from cast iron, each pulley is Taper Locked to accommodate a range of shaft sizes.

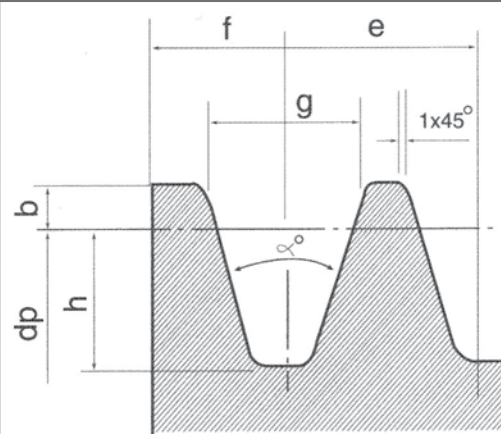

BPT pulleys under go stringent balancing tests, to ensure each pulley functions efficiently. The pulleys are finished in a black coating; this acts as a primer to help protect the pulleys from environmental factors.

Bearings & Power Transmissions carry a range of Taper Lock V-Belt Pulleys in:

SPZ, SPA, SPB and SPC.

Groove Dimensions

Size	dp		f	e	g	h	b
SPZ	<80	34	8	12	9.7	9	2
	>80	38			9.9		
SPA	<118	34	10	15	12.7	11	2.75
	>118	38			12.9		
SPB	<190	34	12.5	19	16.1	14	3.5
	>190	38			16.4		
SPC	<315	34	17	25.5	21.9	19	4.8
	>315	38			22.3
