

Tsubaki Lambda Chain NEW G8 Series release

Advanced Lube Free Chain

Tsubaki is a pioneer in the industry, being the first to develop a roller chain that uses special oil impregnated bushes. Since first being introduced in 1988, Lambda Chain has gained an outstanding reputation in a variety of industries and applications. It is capable of meeting a wide range of customer needs for long life in a lubrication-free environment, resulting in reduced overall long-term costs. Lambda Chain uses NSF-H1 lubricant, so it is safe to use on food equipment.

100th Anniversary Model
TSUBAKI G8 SERIES

The rebirth of the drive chain,
with improved quality and performance.

Features & Benefits of the NEW G8 Series Lambda Chain

Features

- Unique High performance, oil impregnated sintered bushes
- Sintered Bushes use NSF-H1 Food Grade Oil
- Full in house manufacturing
- Special Coated Pins
- Black oxide coated plates (Standard)
- Available in Single, Double Pitch and Attachment Chain
- Can be used with Neptune/Nickle Plate
- X-Lambda features Felt Seals to retain oil

Benefits

- Longer Wear Life = Less downtime and reduced maintenance costs
- Higher equipment reliability
- Helps maintain a cleaner work environment
- Much lower chain replacement costs
- Special pins reduce running friction, lower power consumption
- Can be used in applications up to 150 degrees C (230 degrees for KF Series)

Longer Wear Life = Less Downtime and reduced maintenance costs

Basic Lambda Chain construction

Lubricant

(Uses NSF-H1 food grade lubricant)

Sintered bush

Performance in Ambient Temperatures (-10°C to 60°C)

Popular Industries that use Tsubaki Lambda Chain

- Timber Mills
- Food and Beverage
- Warehouse and Logistics
- Paper and Recycling
- Brick and Tile
- Pharmaceutical
- Cotton Mills
- Printing
